

„Things I Like“

vidusign creative discovery 02: Stop motion task

Summary of the task

Stop motion is about animating objects and paintings. It is also a very good introduction to the idea of moving film.

Reference

Genre	Stop motion video
Learning goals	Understand how still images become a movie
Level of production	Intermediate
Time needed	4 hours minimum
Equipment needed	Stills camera, video editing software

Steps to take

1. *Collect an idea:* what would you like to animate related to things you like?
2. *Prepare your story:* plan your story and prepare all objects and background
3. *Record you story:* Now the photo session can begin:
 - a. *Take a photo*
 - b. *Move your object slightly*
 - c. *Take a new photo*
 - d. *Move your object again (repeat this at least 80 times!)*
4. *Check up on your story:* You can easily preview your story in the stills camera. See if your animation works.
5. *Finalise your story:* Import all your images into your video editing software (such as Movie Maker). You will need a very short duration time for each still image to get the animation effect. Add titles and music and export all.
6. *Share your film!*

Examples

Example 01: [Fernweh - Somewhere else](#)
